Dear Mr. Caraco:

In behalf of the Khmer Solidarity Association of America, I wish to express my sincere thanks to you for your sensitive and concerned leadership in initiating the clothes drive for the benefit of Cambodian refugees temporarily settled at San Onofre, Camp Pendleton.

The tremendous response received from Bechtel employees in contributing clothing items for adults and children, men and women, and numerous miscellaneous personal and household items -- in a total of eighteen barrels of goods -- and a check, evidence the success of the drive. This success has materialized only because Bechtel people, like other Americans, are special people who believe in remedying to existing ill conditions with individual participation.

Thank you again for this meaningful activity fostered by Bechtel under your leadership.

Sincerely,

KHMER SOLIDARITY OF AMERICA

David Viradet Kreng  
President
