EXPANDED PAROLE PROGRAM

May 21, 1976

Dear Compatriots:

With the attached news from Church World Services, I am very pleased to inform you that the United States Government has approved the expanded parole program to permit additional 11,000 refugees to be admitted in the States in the very near future.

This program will include many thousands of our compatriots who are at present in Thai refugee camps.

While waiting for our compatriots' arrival to welcome them to this new land, I urge you all to keep working in cooperation with the rest of our Cambodian community for the benefit of all of us here in the United States.

For any additional information concerning refugee, please contact Kong Thann or Munchhoa Tuthsarak (Cambodians) of H.E.W. by directly calling the toll free number 800- 424 0212.
